

DRAWING INSPIRATION FROM THE REMARKABLE NATURAL BEAUTY OF ITS SURROUNDINGS, **WRJ DESIGN** IMPARTS THE SERENITY, LAYERED TEXTURES, AND SUBTLE COLOR VARIATIONS OF JACKSON HOLE TO THE TIMELESS SOPHISTICATION OF ITS RESIDENTIAL INTERIORS. HERE THE FIRM SHARES HOW IT USED COLOR IN A CLIENT'S GAME ROOM:

Bring outdoor colors in: Mirroring nature's blues, grays, and greens connects this room to its outdoor context, opening and expanding the space.

1

Mine a favorite piece of art for color ideas. This blue and earth tone landscape marries exterior views with the interior thematically, as well as offers color inspiration.

5

Throw pillows provide a quick way to translate the room's blues and creams through eye-catching color blocks and patterns.

4

Plants provide color with living texture and nature's infinite variation. The centerpiece complements exterior rolling hills with a central focal point of green.

6

Use color to surprise for extra impact, like the unexpected pop of blue on the interior of these Poltrona Frau swivel chairs.

3

Subtle gradations of color add texture and warmth, like the monochromatic gray of this area rug, which also grounds furniture on the home's concrete floors.
