

2026 Top Architects

Congratulations to the architecture firms who made CH&L's 2026 list and their talented teams responsible for the beautiful homes you see in the pages of this magazine. Our list was created to be user-friendly, with firms organized by the location of their main office and a special designation for firms featured in CH&L in the past two years. Recommendations came from photographers, designers, homeowners and our staff. Businesses that have been featured in CH&L but are based outside the state appear at the end of the list. »

» In Edwards' Cordillera community, **Pure Design Studio** designed this mountain contemporary with huge windows providing lots of light. The materials—Colorado limestone, stucco and slate-like roof tile—blend in with the environment.

✎ This home designed by **RKD Architects** in Denver's Cherry Hills Village has a low-slung profile that is unobtrusive from the street. The home's main living areas extend along one level; corten steel retaining walls add privacy with style.

PHOTO DAVID O. MARLOW

Vertical Arts Architecture created this home near Steamboat Springs for a Boulder couple with two young children. "We took care to set the house into the grade so the home looked like it belonged," the architect says of the home, built on a sloped site.
